Restoration Statement | Unpermitted Cannabis Structures

In an attempt to restore parcels to pre-violation conditions, the Code Enforcement Division requires parcels with cannabis violations to remove all cannabis related infrastructure. The Building Division now offers the option to permit all cannabis related infrastructure as an alternative path to compliance. Applicants/owners are expected to pay for all Building and Planning permits, including penalty fees (i.e., triple fees for Building permits). **Please provide a restoration statement below and apply for "as-built" permits.**

APN: _____

Please describe your continued use of the unpermitted structures and how you will address ALL associated violations. *

_____

_____

I hereby certify the following to be true.

- The structures or infrastructure are for a use permitted by zoning and land use.
- The building is within the curtilage of an existing residence (i.e., 2 acres).
- The building can be permitted (i.e., building permit).
- There is no environmental harm in the structure remaining (i.e., not in a wetland).

  OR

- In situations where the building does not fit the criteria above a building permit can be issued with a conditional use permit from the Planning Division.

I understand that if subsequent unpermitted cannabis cultivation is identified the site will be subject to Day 1 penalties as described in Humboldt County Code section 352-3(m)(2). Additionally, I agree to comply with Humboldt County Code and all current California Title 24 building codes.
