BARAGA COUNTY ENFORCING AGENT
SOIL EROSION/SEDIMENTATION CONTROL PERMIT APPLICATION

Pursuant to Part 91, Soil Erosion and Sedimentation Control, of Act 451 of the Public Acts of 1994, as amended.

A Soil Erosion and Sedimentation Control Permit is required for **earth changes** that are located within 500 feet of a **lake** or **stream** and for **earth changes** that are one acre (43,560 square feet) or more in surface area, regardless of the location.

Earth Change – A human-made change in the natural cover or topography of land, including cut and fill activities, which may result in or contribute to soil erosion or sedimentation of adjacent properties or the waters of the state. Earth change does not include the practice of plowing and tilling soil for the purpose of crop production.

Stream – A river, creek, or other surface watercourse which may or may not be serving as a drain as defined in Act No. 40 of the Public Acts of 1956, as amended, being section 280.1 et seq. of the Michigan Compiled Laws, and which has definite banks, a bed, and visible evidence of the continued flow or continued occurrence of water, including the connecting waters of the Great Lakes. This includes a ditch, gully, ravine, etc. that *is serving* as a river, stream, or creek.

Lake – The Great Lakes and all natural and artificial inland lakes or impoundments that have definite banks, a bed, visible evidence of a continued occurrence of water, and a surface area of water that is equal to or greater than one acre. "Lake" doesn't include sediment basins and basins constructed for the sole purpose of storm water retention, cooling water or treated polluted water.

Please submit the PERMIT APPLICATION and SITE PLAN to Cindy Larson:
17724 2nd Sand Beach Road
L'Anse, MI 49946
bcsoil@baragacounty.org

Please submit the PERMIT FEE to the Baraga County Treasurer:
2 S. Main St.
L'Anse, MI 49946
(906) 524-6100 Ext. 696

Part 91, Rule 1703 REQUIRES all permit applications to include a SESC **(Soil Erosion & Sedimentation Control)** site plan that shall include, but not be limited to, all of the following:

1. Scaled plan submitted on **no smaller than an 8½ x 11 (letter size) piece of paper**.
2. Site location sketch.
3. Distance to nearest lake or stream.
4. Predominant land features.
5. Soils information and slope
6. Limits of earth change.
7. Drainage facilities.
8. Timing and sequence.
9. Temporary SESC measures.
10. Permanent SESC measures.
11. Maintenance program for SESC.

* The above numbers correspond with the numbers on the example site plan

BARAGA COUNTY
