State of Minnesota,

Plaintiff

MOTION FOR REVIEW OF SENTENCE

Defendant

I was sentenced to serve three segments of jail in this case. I am scheduled to begin serving my next jail segment on _____. I request that the Judge review my sentence and stay execution of the segment of jail.

I believe that my executed jail time should be stayed because I have been alcohol and drug free since I was sentenced. I have done the following things to help me remain alcohol and drug free.

I will also file with this motion letters from people concerned about me, such as AA sponsors, counselors, family, close friends, clergy, or my employer/co-workers.

I will make sure that a copy of this motion is personally given to my probation agent.
